

## 8 Way DMX Splitter 8 Channel

**Model Name: DMX Splitter**

### **Product Description:**

High quality Signal Amplifier 8 way DMX Splitte Price

Voltage: AC110V/120V 60Hz, 220V/230V/240V 50Hz

Product Features:1 Group 8 DMX signal change

Function:Signal amplification shaping capabilities extend signal transmission distance;  
The number of devices to enhance the ability of the data bus access.

8 Channel DMX Signal Splitter Accessories

Power line: 1 piece

User manual: 1 sheet
